

SOLUTIONS FOR  
THE HOTEL, RESTAURANT  
AND RETAIL SECTORS

# CREATING SPACE TO BREATHE

For almost 40 years, Solarlux has represented exceptional quality in the production of versatile glazing solutions. Especially in these trying times, additional areas to give customers more space, consistent ventilation concepts and a flexible use of the space available are all-important in the restaurant, hotel and retail sectors.

More than ever, business owners need to be able to open up large sections of their ground plans to the outdoors, guide the flow customers and make all their entrances accessible. Factors such as saving energy, security, ease of operation and - last but not least - design and aesthetic diversity all have an important role to play here.

Wintergardens, glass canopies, glass houses, bi-folding doors and extra-large sliding windows cover all of these requirements. Here at Solarlux, your world-renowned partner based in Melle, Germany, we make high-quality projects of all shapes and sizes a reality - in short order and with no hassle.

## **SOLUTION**

SL 70e bi-folding door

The image shows a bright, modern interior space, likely a lounge or break area. The room features several long, rectangular wooden tables with integrated wooden benches. The tables are arranged in a row, and the benches are attached to the sides. The ceiling is white with recessed lighting and a central circular vent. Several orange cylindrical pendant lights hang from the ceiling. Large windows on the left side offer a view of an outdoor area with greenery and a paved walkway. A green exit sign is visible above the windows. The floor is dark and reflective, showing the tables and lights. The overall atmosphere is clean, bright, and contemporary.

SL 80 bi-folding door

A photograph of a modern restaurant interior. The view is from outside looking through a large glass entrance. Inside, the space is warmly lit with recessed ceiling lights and two large, glowing spherical pendant lights. The walls and kitchen area feature rich wood paneling. In the foreground, a woman in a dark top and patterned skirt is walking through the glass door, her figure slightly blurred. To her right, a round wooden table is surrounded by white, modern chairs. In the background, there are rectangular wooden tables with dark chairs, and a bar area with a white countertop. The floor is made of light-colored wood.

*Berühmt*

The image shows the interior of a restaurant with a prominent glass roof structure. The ceiling is made of large glass panels supported by a dark metal frame, with several large, industrial-style pendant lights hanging from it. The floor is made of light-colored wood. In the foreground, there is a large, light-colored wooden table surrounded by modern, light-colored chairs with black legs. In the background, there are more tables and chairs, some occupied by people. Large windows on the left side of the room offer a view of the outdoors. The overall atmosphere is bright and modern.
